Subject: Required Witness Report for CR #1050637

This statement is not being given voluntarily, but under duress. I am only completing this report at this time because I know that I could lose my job if I refuse the direct order being given to me. This To-From report should not be considered a verbatim statement but only a summary of requested information.

R/O was detailed to the Chicago Police Department Alternate Response Section, Unit 376 for approximately nine months while on light duty during pregnancy. R/O's specific duties at Unit 376 were to take calls, direct calls to appropriate services, generate case reports, provide general information. R/O was working on 12 December 2011.

R/O was not assigned to a specific workstation long term. R/O was responsible for checking the schedule daily to receive her seat assignment for that work day. R/O's seat assignment was changed often. R/O believes that she was working at workstation 227 on the date in question.

R/O sat down at the listed workstation and observed that the computer monitor was asleep. R/O shook the mouse controller in order to wake the screen at which time R/O observed several images of nude Caucasian women masturbating and/or posing provocatively. R/O also observed that there were several minimized tabs on the bottom of the screen with sexually explicit titles/texts. R/O did not observe anyone else view the images until after R/O notified P.O. Rodriguez and Sgt. Panagus who then witnessed and viewed the same images. R/O did not observe anyone at workstation 227 prior to R/O's arrival.

After making the observation, R/O immediately removed herself from workstation 227 and notified a nearby senior officer, P.O. Rodriguez who witnessed and viewed the images. Sgt Panagus was then notified at which time he observed the same. Several of the links appeared to be personal picture files containing the pornographic images rather than websites. R/O was instructed by Sgt. Panagus to click on a few of the links in an attempt to identify its

origin/owner. R/O was then instructed to move to another workstation and complete a witness to from of the above incident. R/O has nothing to add at this time.
